

## **Olivia Spencer**

**I'm Olivia Spencer, an up and coming artist from Marion, MD. I'm honing my skills through Salisbury University's Fine Arts program.**

**When I'm not creating art, you can find me travelling, camping, surfing, and hanging out with friends and family. What brought me inspiration for my project was Old Island and the 50 foot tall chimney it homes. Not only is the island fascinating to me, it is also recognized greatly for the history it holds. I also applied to this project because it is a great opportunity for me to express how important Crisfield is to me. Feel free to check out my portfolio online @oliviacspencerart.com**
